

NAQG Guidelines/Suggestions
For Writing Quilling Patterns and/or Instructions

In an attempt to bring some uniformity to Quilling Patterns and Instructions the NAQG would like to recommend that quillers use the following basic outline. If you are writing, publishing, distributing, sharing, or otherwise making available patterns/instructions for projects to fellow quillers, it would be very helpful if this suggested guide was followed.

Guideline for Quilling Patterns

Please Include

1. The actual date or year the pattern/instructions were created
2. The name of the project ...if any
3. All the shapes names should reflect the shape names given in the official NAQG shape chart
4. The number of pieces needed of each shape should be indicated
5. The measurements should be given in both Imperial and Metric
6. A photo/illustration should be included ...if available
7. Basic assembly instructions
8. Artist credit given
